THE COLLECTION

The Arts and Crafts movement evokes a timeless nostalgia, longing for the days when skill and quality worked hand in hand. The traditional aspect of this style inspires us to dig deep into the archives and fill our homes with revived fabrics and pay homage to a time when things were a little simpler. Dark woods, immutable furniture characterized through unique design combined with embroidered floral fabrics create an impactful impression. Deep blues, mossy greens, rich reds and hints of yellow ochre continue the legacy. These sumptuous shades appear in paint palletes, soft furnishings and accessories.

Swish Naturals is the perfect accompaniment to this heritage style, wood poles echoing the light, medium and dark wood tones of 1800s but sited in the modern day with a lacquered finish. Achieve authentic historical depth with the urn finial, an excellent alternative to the customary ball finial.

Take a step closer to your heritage style.

SWISH SOHO COLLECTION

A mixed media aesthetic, 28mm metal poles with a very authentic and appealing textured woodgrain effect in various shades. The combination of the softer pole paired with high specification metal accessories adds to the sophistication without overshadowing the pole's sharp yet natural effect. Classic stud finials, rounded brackets and square cut rings in a select range of colours complete this contemporary look.
