French Curtain Pole

Subtle Styling

The simple elegance of this stunning pole helps to **minimise light ingress**. The gentle curves ensure the curtain stacks back to the wall for **extra insulation** from draughts.

French Curtain Pole

Finish options: Satin Steel, Matt Black & Antique Brass, all available in 200cm & 400cm lengths.

IFEPRG10.MB	Lined Rings Pack of 10	Matt Black	-	£ 9.50

This sophisticated French pole from Integra consists of two lengths, supported by understated brackets which return to the wall. This helps to reduce light ingress and draughts without compromising on aesthetics, as well as offering increased privacy and neater stack back of the curtains. Available in 3 finishes and 2 sizes, any window can benefit from the perfect mix of function and style. The pole is able to be cut to size, with the centre bracket effortlessly covering any sawn ends. To see the full potential of the pole, use any domestic-weight curtains with eyelets or rings (lined rings are available if required).
